

The Munchkin NOOK

CLASSROOM GROUP ACTIVITY

Bumpy Munchkin's New House Listen & Draw

So Bumpy stayed in Munchkin Nook...But where will he live? He could most probably stay a few more days at Cheery Munchkin's place but he would really need his own house.

Let's draw him one! Listen to the instructions and draw!

- Bumpy's new house has the shape of a pumpkin.
You can colour it orange.
- Its roof is made of a huge green leaf. On top of it there are two chimneys. One is yellow, the other is red.
- The door is in the middle and it is green.
- The house has 3 round windows: one is blue, the other two are green.
There are flowers in the blue window.
- Next to the house on the right there is a brown bench. Bumpy will be very happy to sit there and to listen to the birds.
- On the left there is a pink tulip. The petals are touching the roof.
(Don't forget Munchkins and their houses are very small!)
